Fare to Newark, 15½ cts. Bergen Point, 12½cts.
The steamer Passaic is remarkable for speed; performing the distance in from 1½ to 1½ hours each trip. Ladies will find this route very pleasant and particularly advantageous, as the inconvenience of changing from car to ferry boat with baggage is avoided. Goods and freight taken on reasonable terms, but early at the risk of the owners.

SOUTHERN DAILY MAIL LINE for Norfolk Charleston, S. C., Petersburg, and Richmond.—The steamboats ALABAMA,
TENTUCKY and JEWESS, all boats of speed and accommosation, will commence running daily on the first April, between Baltimore Norfolk, and Portsmouth, leaving the lower end of Spear's wharf every afternoon at 3 o'clock, or immediately stear the arrival of the cars from Philadelphia, and will arrive next morning at Portsmouth in time for the cars for Wilmington, and thence steamboats to Charleston. Returning will leave Portsmouth every day after the cars arrive from the South, and reach Baltimore next morning in time for the cars for Philadelphia.

These boats run in connection with the well known steam.

delphia.

These boats run in connection with the well known steam packets Georgia and South Carolina which leave Norfolk every Saturday for Charleston, giving travellers a choice. They also run in connection with the James River boats to Petersburg and Richanood. Strangers are informed (old travellers know) that this is the cheapest and most comfortable route for southern travellers, as there are no changes from cars, steamboats, and stages is the dead of night, as on the Washington route. The company therefore hope the travelling part of the community will patronise them, in giving equal facilities and superior comfort.

WE have chosen the above couplet of the old song as the heading of this advertisement, from a firm conviction of its truth. Having now on hand an assortment of the finest Segars ever imported in the United State and selected expressly for this establishment by our agent at Havana, we feel great confidence in recommending them to our friends and the public. The assortment comprises the chvicest and most popular brands—including the Estra Noriega, La Normas, Imperial, Trabaco, Impressa, Camones, Fremiera Regalia, the finest ever sent to this country, and imported expressly for private use; and various others which all who can appreciate the luxury of a good segar are invited to call and examine.

Remember that Seixas, 85 Cesar street, receives his Segars direct from Havana; they are selected exclusively for him with the greatest care by a competent judge, and there is no other place in the city where strangers and others can obtain, with equal certainty, the genuine and pure Havana's, 85 Codar street, jy26-lm*

PRIVATE DISPENSARY.—BR. Dr. ANGELIS, for merly a practitioner of medicine in the public hospitals at Naples, and member of the medical faculty of the city of New York, where he has been practicing physic since the year 1798, continues to be consulted at his office, No. 196 Fulton street, nearly opposite Church street.

The most obstinate and inveterate diseases, requiring the soundest judgment in treatment, and particularly all cases originating in impurity of the blood, and chronic affections, rheumatisms, obstructions, ulcers in the throat, eruptions of the skin, debility, &c. will be specifly and radically cured by means the least expensive and the most convenient to patients. Remedies to be used are prepared by himself, and their good effects rendered infallible.

Doctor De Angelis has effected a cure in many cases which had baffled all the resources of the medical art; but he etter only one. Copy of a letter from Drs. Osborne and Ireland, physicians of this city, to Dr. De Angelis:—

116 Fulton street, Dec. 6, 1819.

Sir—We have no hesitation in replying to your note, in saying you deserve much credit for your successful treatment of Mr. Jebn Thorn, after it had baffled physicians both here and in a more favorable climate. We are your obedient servents, SAMUEL OSBORNE, M. D. W. H. IRELAND, M. D.

J. STONE'S WATER FILTERS—These filters have been highly approved of in Europe and America for the last thirty years, and are accounted superior to any hitherto invented, as they combine the properties of purifying as well as clarifying the most turbid water. It is almost needless to advert to the utility and advantages to be derived from the use of a well constructed filtering apparatus, as it is obvious to every person that filtered rain water is much more wholesome and conducive to health than either spring or river water, the former almost invariably containing mineral substances in solution, and the latter being impregnated with decayed and putrid animal and vegetable matter, the constant use of which frequently octasions the most dreadful diseases, such as fevers, agues, liver complaints, &c. Filtered water is also of the great at importance for extracting more perfectly the virties of tea, coffee, &c., the truth of which can be easily tested by making the experiment with filtered and unfiltered water. Manufactured and sold only by J. STONE, Plumber and Engineer,

390 Broadway, N. Y.

P. S.—Those who have Filters made by persons not understanding the business, can have them repaired, and fitted up on the subscriber's plan, and warranted to act perfectly. jy22-lm*

TO ARCHITECTS, BUILDERS, AND OTKERS—
The subscribers would respectfully inform builders and stress, that they have constantly on hand, and are prepared to furnish at short notice, architectural ornaments of every description, "for the interior finishing of dwellings, churches, and other public buildings," vize capitals for columns, and antæ do, to all the orders of architecture, consules, trusses, enriched mouldings, rosettes, patares, frieze ornaments, &c. &c. &c. to any size. The long proved quality of composition ornaments, as executed by them, renders it useless to say much in its sudogy; and, with the means they possess, and from long practice in the execution of models, moulds, and every department of business, flatter themselves that for boldness of relief, and general sharpness and beauty, their work will be found much superior to any thing of the kind done in any other place, they having avoided that tiny, flat and undefined appearance, is much and so justly complained of. Great attention having been paid to the modes of manufacture, to insure the best quality, at the lowest possible price, they are happy to say that their present scale of prices will be found to be beyond the reach of abatement or competition.

Builders out of New York, in any part of the United States, would find a material saving, and likewise procure a superior article by calling or writing for any thing of the kind they may require, they are hand, and are enabled to fill orders to any amount at very short notice

BATTERY HOTEL.

Battery Place—New York.

The subscriber returns his grateful thanks to his friends and the public, for the support he has experienced for the last six years, and begs leave to inform them that he has opened an extensive Hotel for the accommodation of travellers from every section of the Union.

The Battery Hotel is situated on Battery Place, fronting the Bay of New York, one of the most desirable and commanding situations in the city, and, as regards location, is unrivalled.

The landings are but a short distanct from the Hotel, where arrive daily, the steamboats from Philadelphia, Providence, Stonington, and Albany. Passengers have, therefore, every facility in starting for any of the great Northern, Eastern, Western, or Southern routes

The interior arrangements of the House are calculated to afford satisfaction to all. The parlors are spucious, and are furnished in the neatest style. The bedrooms are of a larger size, and rendered more comfortable than are usually obtained in large Hotels.

The preprietor assures the public, that no expense will be spared, and every exertion made, to render his establishment a desirable resort for travellers and citizens.

PRICE NOT THE TEST OF CHEAPNESS.

Political economists have frequently differed as to what was a fair, and at the same time, the surest measure of value; but we never yet came across any one who had gravely recorded it to be his opinion that the nominal price any article sold for, was any measure of its actual value. Such a nation would be deemed so great a fallacy, that its statement on paper as is logical deduction, would prove its own absurdity, and yet, those individuals who run about from one store to another for the purpose of ascertaining the minimum number of dollars and cents at which they can be furnished with articles of food and raiment, of course commit a still greater, because a more practical absurdity, than any speculative philosopher would do, who sat down in his close to argue from such false premises. The one would merely be laughed at as a visionary schemer; but the other's deemed it only to graduate among the philosophers of Laputa, who contemplated making deal boards out of Sawdast, and extracting sunbeams from anounthers. Taking that must important of all articles to zen in this dressing age, a cost, whether frock, dress, riding, or the kind called "top," it matters not, and see how many different elements, all of which affect the interest of the wearse, go to make up its cost.

1st, There is the raw material, and secondly, the quality of the dye used and the degree of skill possessed by the manufacturer of the cloth. These primordial ingredients to wards a cost, this self criticult, must vary as much as the wind, weather, or even woman's caprice; and 2dly, when it comes into the hands of "the Snyder," there is the skill of the entire, the quality of the trimmings, and last, though not least, the scientific qualifications which the artist may possess, who is to send it "into this hereathing world," not "a thing of shreds and patches," but as a reicle of beauty, utility an! leastly fixed either to adorn, or descerate the human forms. Other reasons could be adduced to show that in conts, at
